I send weeklies in every week so he should be updated.

Falcon – NORCO waits on TCEQ evaluation of permit application for land applying treated water. Additionally, NORCO continues to address tankage and evaluating disposal options for sludge:

- Tank 2 is completely decontaminated.
- Liquids from 10 and 27 are currently being removed and will be completed by September 14, 2011.
- During the next two weeks the removal/decontamination/ demolition of 9 tanks (2,17,18,19,20,21,22,23 &24) will be accomplished by September 23, 2011.
- TRC will have addressed 11 of 20 tanks at the site by September 23, 2011.

Gary, can you give me a one short paragraph update on the status of the removal action that I can provide to Sam, unless your super will be there. Thanks.

Subject: Falcon - Briefing for Sam and Pam

Hello all, we are scheduled for a weekly Site briefing at 3 pm on Thursday 9/01 to provide Sam the current status of the Site. I am assuming Gloria will lead the briefing with the status of the Agreed Order.

Other than that, please be prepared to answer any questions they may have concerning the Site and your work. Call me before the briefing to discuss anything you might want to add during the briefing.

Thanks
